

TERRY FOUND DEAD
LYING IN A BUGGY

HEART TROUBLE BROUGHT ON
BY DRINK.

Deceased Has Been a Hard Drinker—
And Fartook Too Freely Of Cider
Yesterday—Farmers Discovered
His Lifeless Body—Interment Will
Be In Emerald Grove Cemetery.

Clarence Terry, of the town of La
Prairie, was found dead at noon yester-
day lying in the bottom of his buggy.
Hitched to the vehicle was his faithful
mule, calmly grazing beside the road.
Death resulted from heart disease
and strangulation brought on by over-
drink. The body when found was still
warm, and was in a cramped position,
the head being beneath the body in such
a way as to bring strangulation.

A Unique Character

The death of Clarence Terry removes
one who was an odd character known
throughout the entire county. Whisky
was his worst enemy, and to this his
relatives attribute his untimely death.

Yesterday morning Terry arose in ap-
parent good health and informed those
on the farm that he was going to the
Finch homestead, a short distance away,
to pay the boys a friendly call. He
hitched up his favorite mule to a buggy
and was soon at his destination. Cider
making had been going on at the Finch
farm during the day, and when Terry
arrived he lost no time in satisfying his
thirst. He drank freely, and then
started for home in an intoxicated con-
dition.

Wanted a Little More Cider.

After once gaining the road he
was making for home and was soon lost
sight of. Neighbors who passed him on
the way say that he was sitting on the
edge of the seat with his head forward
between his legs. They yelled to him,
but received no answer. A half hour
later a farmer in passing near the Terry
home discovered the mule calmly grazing
beside the road, while in the buggy he
was horrified to find the lifeless body
of Terry. The body was still warm,
but life was extinct.

Died of Strangulation.

Dr. R. W. Edden was called, and
found that death resulted from heart
disease and strangulation. The corpse
was in a cramped position, and was with
difficulty removed to the home of his
parents.

A grief-stricken father and mother
and a brother are left to mourn his un-
timely death. Funeral services will be
held tomorrow, and the interment will
be in the cemetery at Emerald Grove.

Deceased was born at Delavan in 1851
and was the son of Mr. and Mrs. Uriah
Terry.

A LARGE SALE OF SEATS

Good Attendance Assured at Tomorrow
Night's Performance

The sale of seats for tomorrow night's
dramatic attraction at the Myers House,
"The Span of Life," began this morning
and was uncommonly brisk. The fame
of the melodrama has become extensive.
It deals with the love and fortune of a
young girl and her lover who are per-
secuted by a villain who tries to gain
the girl's fortune. The story of the
play takes place in England and in
Africa, and is full of dramatic situations
and startling episodes. Sutton Vane,
the author, has conceived two great
scenes that would carry any drama
along the steam of prosperity. First,
the great lighthouse with the angry
waves dashing around it and the
savings of an ocean liner
from destruction on the rocks by the
hero. This scene is by far the most
vividly realistic ever seen in this city.
The second takes place in the heart of
Africa, where the heroine, who pursued
by a band of Arabs, headed by the vil-
lain, who has taken the horrible calling
of a slave trader, finds a means of escape
in a human bridge formed by three of
her friends from the opposite side of the
chasm. This marvelous scene has been
the talk of four continents and has no
doubt made "The Span of Life" the
successful and popular play it is. The
company includes many well known
artists and the famous Donazetti trio,
who form the human bridge.

Private Roger, who enlisted in the
Fort Atkinson company, died in the
hospital at Milwaukee yesterday and
was buried at Evansville today. He
has been ill with fever ever since the re-
turn of the regiment from Jacksonville.

Sportsmen from this section of the
country who have been spending the
past few weeks on the shores of Lake

most frequent violations of the fish and
game laws are going on there. Not
only is there much illegal fishing by

brazen as to arouse suspicion that the
offenders feel perfectly safe that they
will not be molested.

RETURNING TO
THEIR SENSES

CUBAN LEADERS SEE FOLLY OF
RESISTING UNCLE SAM.

They Are in a Starving Condition, But
Will Receive No Assistance Till
They Lay Down Arms—Report
That France Will Recognize Philip-
pine Republic.

Washington, Sept. 26.—[Special]—
The Cuban leaders seem to be grad-
ually coming to their senses. They are
no longer riding high horses and vaunt-
ing themselves as masters of the sit-
uation in the island, but are compelled
to acknowledge their obligations to and
dependence upon the United States.
Their troops are in a starving condition
and appeal for provisions have been
sent to the American commissioners.
These will not be heeded unless the
Cubans lay down their arms and return
to the occupations of peace. This, they
are reluctant to do, for they have be-
come fascinated with freebooter's life
and do not care to submit themselves to
civil law. Hunger will compel them
to do so, however, and the disbandment

injured, and can be put in condition for
small cost. She is one of the prizes of
war, and can therefore be incorporated
into our navy with very little formality.
It is expected that she will be brought
to the Brooklyn navy yard, where she
will be overhauled and placed in good
seaworthy condition with as little delay
as possible.

IMPROBABLE RUMOR

Report at Berlin That England Intends
To Withdraw From the Samoan

Berlin, Sept. 26.—[Special]—It is re-
ported here that England will withdraw
from Samoa in favor of Germany. The
government of Samoa is now under the
triple protectorate of England, Ger-
many and the United States. The report
of the withdrawal of the English govern-
ment is not generally credited as such a
step is wholly at variance with her
past policy of retaining a foothold
wherever she has been able to attain it.

Quarrel in Central America.

Managua, Nicaragua, Sept. 26.—The
delegates who are daily holding meet-
ings at this place for the purpose of
deciding upon the articles of the con-
stitution for the proposed "United
States of Central America" have had
several serious differences, the repre-
sentatives of Nicaragua and Honduras
voting in some instances solidly or
nearly so in opposition to the views
of the delegates from Salvador. Many
delegates declare that when the presi-
dents of the states are ordered to de-
liver to the new federal government
their cannon, rifles and munitions of
war there will be much opposition and
that some of the presidents will delay
or refuse altogether to comply with
the order and thus prevent the estab-
lishment of the "United States of Cen-
tral America."

HOPE OF RELEASE
FOR CAPT. DREYFUS

FRENCH CABINET DECIDES IN
FAVOR OF REVISION.

His Release From Imprisonment Prac-
tically Assured—Picquart Has Done
Him a Notable Service, But is Suf-
fering For His Devotion to His
Friend.

Paris, Sept. 26.—[Special]—The min-
isters, after a long discussion at cabinet
council this afternoon, finally decided in
favor of the revision of the Dreyfus
case. This practically assures the re-
lease of the captain from confinement
in the penal colony. There seems to
be a probability of the release of Col.
Picquart, the friend of Dreyfus, who
was the first to suspect the genuineness
of the bordereau which convicted the
captain. Picquart is guarded very care-
fully and not even his attorney is per-
mitted to see him. He is on trial for es-
pionage in revealing the documents in
the case. The French cabinet is in a
desperate situation, and when first cast
into prison made the startling statement
that if found dead in his cell he would
have been murdered, for he had positive-
ly no intention of committing suicide.
He also hinted that Colonel Henry did
not kill himself but that he had been as-
sassinated. Picquart further said that
a detective employed on the case—one
Picard—had also been killed by the au-
thorities. It is evident that the powers
in France are afraid of Picquart and
what he may say that will precipitate a
crisis from which the republic may not
be able to emerge.

The council was unanimous in the de-
cision to hand over to the court of Cassa-
tion the entire Dreyfus dossier. There
were lively demonstrations of approval
when the public became aware of the
cabinet's decision. The council decided
to send instructions all over this country
to treat rigorously any persons a tacking
the army.

QUARREL OVER THE SPOILS

Democrats and Populists In Milwaukee
Cannot Come to an Agreement.

Milwaukee, Sept. 26.—Fusion between
the democrats and populists in Milwau-
kee county this fall will not be indulged
in. The populists asked too much and
were not willing to accept what the
democrats were willing to give.

The main hitch was on the member of
congress. The populists demanded the
nomination of Robert Schilling, and this
the democrats refused, as the belief
is general that Schilling could not be elect-
ed, and the democrats have as good a
chance to elect their candidate alone as to
back Schilling.

Chairman Bruce of the democratic
committee last night admitted that fusion
was a thing of the past. Mr. Bruce
gave out a statement in which he said
the committee from both parties had
been working on a fusion scheme for
some weeks, but could not agree. The
populists, he said, demanded the con-
gressman and three places on the county
ticket. This was flatly refused by the
democrats. The democrats then offered
the populists two places on the county
ticket. This offer the latter refused. It
was found that the two parties had
parted in a friendly way.

Mr. Bruce admitted that had a motion
to drop all attempts at fusion been made
in the democratic county committee it
would have been carried, so strong has
the anti-fusion sentiment become in the
democratic ranks.

This defeat of a combine between two
parties gives the republicans a good
fighting chance to carry the county and
make a change of nearly 10,000 votes as
compared with the election of a repub-
lican congressman in this district
possible.

GROCCERS ARE AT DAGGERS DRAWN

EARLY CLOSING MOVEMENT RESULTS IN A CONFLICT

East Side Tradesmen Claim That Night Traffic is of No Account, and Doesn't Pay—Those on the West Side Are of a Different Opinion.

The war of the grocers goes on apace, and the east and west side traders in eatable commodities are lined up in hostile array. All the trouble arises from the early closing movement. The east side grocers are of the opinion that they and their employees are entitled to a few hours rest each day, and have resolved to close their places of business at 6:30 each evening. This gives them about twelve hours work for six days in every week, and this, they insist, is enough to satisfy them and is all that should be required of them. They also claim that late trading is merely a habit into which the people have fallen, and that every family can supply itself during the twelve open hours for the twelve hours during which their stores should be closed. They furthermore claim that it does not pay to keep their stores open evenings, that the trade is small and not sufficient to pay the gas and fuel bills.

The west side grocers have another story to tell. They declare that they like work, and are willing to work all the time, and that their employees are of a like mind. They say the people like to trade in the evenings, and are for more liberal purchasers, after they have had a good supper, and that the glare of the gas jets is an inducement to traffic and a stimulus to liberality. They say that working people do not sup until 6:30 or 7 o'clock in the evening; and that they are compelled to wash and dress themselves, and that at 7:30 they can sally forth and make their purchases for the succeeding day. Furthermore they declare the people in the country—those within a radius of six or seven miles of the city, find it most convenient to visit the city during the evenings, and that if the stores here close they will go to some other place to trade. These people as a rule stop at the first grocery store they come to, but occasionally come down town, and their trade is worth having.

Thus the matter stands, and there is no prospect of an agreement. Indeed, the grocers have come to the conclusion that they may as well agree to disagree. The lights will blaze in the stores of the west side as late as any customers come to hand, while the stores on the east side will be dark with cimmerian gloom. The merchants of each section claim that wisdom is on their side, but of this the public must judge. It is a question of dollars and cents in the main. The gas and electric light and the fuel companies are in favor of late closing, while the public at large doesn't seem to take much interest in the matter, as it can accommodate itself to crotch stances with out the least inconvenience.

One fact stands out in bold relief: The grocers who do the largest business day and evening, are those that advertise the most liberally. These make no complaint of dullness at any time, and their profits keep on increasing despite gas and coal bills of considerable proportions.

THE MILES-ALGER-SHAFTER CONTROVERSY.

The return of Major General Nelson A. Miles revives interest in the controversy between General Miles on one hand and Secretary Alger and General Shafter on the other. General Miles claims that he was informed before he went to Santiago that he was to assume command of the United States army there, and in an interview he has further declared that Secretary Alger secretly ordered General Shafter not to report to him (Miles), but to take his orders from Washington alone. The general tone of the interview was criticism of Secretary Alger, and army officers have been waiting anxiously to see what would happen when General Miles returned to this country.

DANGER IN SODA

Serious Results Sometimes Follow Its Excessive Use.

Common soda is all right in its place and indispensable in the kitchen and for cooking and washing purposes, but it was never intended for a medicine, and people who use it as such will some day regret it.

We refer to the common use of soda to relieve heartburn or sour stomach, a habit which thousands of people practice almost daily, and one which is fraught with danger; moreover the soda only gives temporary relief; and in the end the stomach trouble gets worse and worse.

The soda acts as a mechanical irritant to the walls of the stomach and bowels and cases are on record where it accumulated in the intestines, causing death by inflammation or peritonitis. Dr. Harlandson recommends as the safest and surest cure for our stomach (acid dyspepsia) an excellent preparation sold by druggists under the name of Stuart's Dyspepsia Tablets. These tablets are large 20 grain lozenges, very pleasant to taste and contain the natural acids, peptones and digestive elements essential to good digestion, and when taken after meals they digest the food perfectly and promptly before it has time to ferment, sour and poison the blood and nervous system.

Dr. Wuerth states that he invariably uses Stuart's Dyspepsia Tablets in all cases of stomach derangements and finds them a certain cure not only for sour stomach, but by promptly digesting the food they create a healthy appetite, increase flesh and strengthen the action of the heart and liver. They are not a cathartic, but intended only for stomach diseases and weakness and will be found reliable in any stomach trouble except cancer of the stomach.

All druggists sell Stuart's Dyspepsia Tablets at 50 cents per package.

CURED OF ASTHMA.

After 35 Years of Suffering.

It will be gratifying to asthmatic readers to learn that an absolute cure has at last been discovered by Dr. Rudolph Schiffmann. That the remedy is an effective one cannot be doubted after perusal of such testimony as that of C. W. Van Antwerp, Fulton, N. Y., who says: "Your asthma cure is the best I ever used. I tried it according to directions, and one box entirely cured me of asthma, and I have not had it since. I can now go to bed and sleep all night with perfect comfort, which I have not done before for thirty-five years, and I thank you for the health that I now enjoy. I hope that you will publish this letter, that others may learn of its wonderful virtues."

Schiffmann's Asthma Cure is sold by all druggists at 50c and \$1.00 per package, or can be obtained by writing direct to Dr. R. Schiffmann, Box 804, St. Paul, Minn.

Clearing Up Yellow Pond Mystery.

Bridgeport, Conn., Sept. 26.—A search of Nancy Guilford's house settled beyond a doubt that Emma Gill died there, and it was also learned that her death took place Sunday, Sept. 11. Several incriminating articles belonging to Mrs. Guilford were found in the search of the premises. Superintendent Birmingham stated last night that he expected to hear of the arrest of Mrs. Guilford at any moment. He was positive that she would be in custody before many hours.

Timber Swept by Fire.

Cheyenne, Wyo., Sept. 26.—Reports from various parts of the state show the forest fires are still burning in many places. A fire which has been in progress in the Battle lake district in Carbon county has just been put out, after destroying several hundred acres of valuable timber. A fierce fire is burning across the Colorado line in the timber around Hahn's peak. In Sheridan and Big Horn counties fires have been burning during the last week along the Little Horn river.

Friendly with Italy Again.

Colon, Colombia, Sept. 26.—A special dispatch from Bogota says the Colombian government has reconsidered the decree recently issued severing diplomatic relations with Italy, and the British minister is now recognized as representing Italian interests in the absence of the Italian minister. Permission, however, has been granted to consular officers of friendly nations to act in a similar manner throughout the republic.

Joint Heirs in Africa.

London, Sept. 26.—According to an article in the Fortnightly Review the Anglo-German agreement provides in detail for Great Britain and Germany to become joint heirs by purchase of all the Portuguese possessions in Africa. The first outcome of this, the paper says, will be the leasing of Delagoa bay to Great Britain.

WANTS RIGID INQUIRY.

McKinley Indicates His Desire That Investigation Be Thorough.

Washington, Sept. 26.—The commission appointed by President McKinley to investigate the administration of the war department in relation to its conduct of the Spanish-American war began its labors formally today. The commission effected an organization yesterday by electing Gen. Grenville M. Dodge president, Mr. Richard Weightman secretary, and Maj. Stephen C. Mills, of the regular army, recorder. The president is understood to be thoroughly pleased with the personnel of the commission. It was his effort to secure as members of the commission men of the highest character and standing, in whose opinions and judgment the country would have all confidence. That it is the president's desire that the inquiry should be rigid and searching was indicated by his statement to the commission when it assembled at the white house for a conference with him Saturday.

GEDAREF IS TAKEN.

Last Stronghold of the Dervishes Captured by British Forces.

Suakim, Sept. 25.—Col. Parsons, governor of Kassala, captured Gedaref, the last stronghold of the dervishes, on Thursday, after three hours' severe fighting. Thirteen hundred Egyptian troops and 3,000 dervishes were engaged. The latter were completely routed with the loss of 500 killed.

The British lost no officers, but the Egyptian battalion lost three officers wounded and twenty men killed and thirty wounded. An Arab battalion of 400 men and the irregulars had fifteen killed and twenty wounded. In the camel corps two men were killed and three are missing. The loss on both sides was at least 600 men.

Mr. Bayard Becomes Weaker.

PERIODS OF PAIN.

Menstruation, the balance wheel of woman's life, is also the bane of existence to many because it means a time of great suffering.

While a woman is entirely free from periodical pain, it does not seem to have been nature's plan that women otherwise healthy should suffer so severely. Lydia E. Pinkham's Vegetable Compound is the most thorough female regulator known to medical science. It relieves the condition that produces so much discomfort and robs menstruation of its terrors. Here is proof: DEAR MRS. PINKHAM:—How can I thank you enough for what you have done for me? When I wrote to you I was suffering untold pain at time of menstruation; was nervous, had headache all the time, no appetite, that tired feeling, and did not care for anything. I have taken three bottles of Lydia E. Pinkham's Vegetable Compound, one of Blood Purifier, two boxes of Liver Pills, and to-day I am a well person. I would like to have those who suffer know that I am one of the many who have been cured of female complaints by your wonderful medicine and advice.

—Miss JENNIE R. MILES, Leon, Wis.

If you are suffering in this way, write to Miss Miles did to Mrs. Pinkham at Lynn, Mass., for the advice which she offers free of charge to all women.

FIRE ON THE NEGRO MINERS.

Situation at Virden, Ill., Is Becoming Alarming

IMPORTED MEN IN DANGER.

Special Train Bringing Colored Workmen from Alabama Made a Target for a Fusillade of Bullets—Claims the Men were Brought Here Under False Pretenses.

Carlinville, Ill., Sept. 26.—The strike situation at Virden has assumed serious proportions. For several weeks the Chicago & Virden Coal company has been building a stockade for the purpose of protecting the negro miners that were to be imported from the south. A few days ago a number of former Chicago policemen arrived on the scene to do guard duty. The miners thereupon began to assemble at Virden and to arm themselves against any imported miners that should arrive. Saturday the miners patrolled the Chicago & Alton railway track and switches, swearing that under no circumstances would they allow the negroes to be brought into the town.

Sunday morning a special train bearing 100 negroes in charge of W. S. Cain, Chicago & Alton chief of detectives, steamed into Virden. Several hundred miners were patrolling the tracks. The negroes had been warned to keep a close lookout, and at sight of the armed miners left their seats and lay on the floor, none too soon, for a fusillade of bullets sped through the windows over their heads. Detective Cain perceived the imminent danger and signaled frantically to the engineer not to stop in the corporate limits, but to pull out at the highest speed. The engineer responded and the train ran through to Springfield. Several shots were fired at the fast passenger train an hour later. The Chicago & Alton officials have been anticipating trouble for several days and all train crews have received orders to proceed cautiously between Girard and Auburn.

Wanted to See the Governor.
Springfield, Ill., Sept. 26.—Over 100 negro miners from Alabama arrived in the city Sunday morning. They came from Birmingham on representations from Virden that they could get employment in the mines there, and were furnished transportation. They claim they were told that there was no strike at Virden and that the miners there had gone to war. They were met here by State President John M. Hunter of the United Mine Workers and local miners, who persuaded them to march in a body to the executive mansion to see Gov. Tanner and discuss the matter with him. The governor, however, was not at home when they arrived.

Held for the Train Robbery.
Kansas City, Mo., Sept. 26.—Chief of Police Hayes last night received a telephone message from St. Joseph that three men suspected of complicity in the robbery of the Missouri Pacific train out of Kansas City Friday night had been arrested in that city. Their names were given as John Ryan, James McLeer and John Morgan, and it is alleged that they had in their possession \$676 in mutilated greenbacks. The explosion that wrecked the baggage car and the Pacific Express company's two safes is believed to have mutilated, if not destroyed, any valuables contained in the safes.

New Shipbuilding Plant.
New York, Sept. 26.—The Journal prints the following: Sharply following the confirmation of the news that a gigantic steel trust has been formed in this country comes the announcement that a shipbuilding plant on a vast scale is to be established in this port, with Andrew Carnegie as its active head. Even now it is said that conferences are being held daily in Pittsburgh by the representatives of the various capitalists who will be interested with Mr. Carnegie in this great undertaking.

Hay's Duties Begin This Week.
Washington, Sept. 26.—Col. John Hay, the new secretary of state, is now at his country place in New Hampshire. He has informed the state department that he will assume the duties of secretary of state next Thursday, and official notices to that effect are being prepared in Col. Hay's name for transmission to the members of the diplomatic corps. The new secretary will receive the members of the diplomatic corps at the state department next Saturday.

Assigned by the Conference.
Terre Haute, Sept. 26.—The United Brethren conference of the lower Wabash valley closed Sunday. Bishop Castle announced the assignments of ministers for the ensuing year. The conference took no action in the matter of the proposed college at Muncie or upon the proposition of Prof. Miller of the university at Bloomington, Ind., for the establishment of a theological school near the university campus.

Will Build New Steel Works.
Sharon, Pa., Sept. 26.—The Bessemer Furnace company will erect a \$2,000,000 steel works. The plant will be large enough to utilize the product of the eighteen furnaces in the Mahoning and Shenango valleys owned by the company.

Think Hitt Will Be Named.
London, Sept. 26.—Senator Proctor told the News representative that he would not be surprised if Mr. Hitt was appointed ambassador to Great Britain in succession to Col. Hay.

A LONG- FELT WANT.

It Is Supplied At Last In Janesville

It is hard to always be pleasant. Good natured people are often irritable. If you knew the reason you would not be surprised. Ever have itching piles? Not sick enough to go to bed or well enough to be content. Nothing will annoy you so. The constant itching sensation. Hard to bear; harder to get relief. Keeps you awake nights. Spoils your temper; nearly drives you crazy? Isn't relief and cure a long felt want? It is to be had for everyone in Doan's Ointment. Doan's Ointment never fails to cure itching piles. Ever a rany itching of the skin. Here is proof in the testimony of a citizen:

Mr. L. Lawrence, of 409 S. Franklin St., engineer at the Janesville Electric Light Co., says: "I tried about everything recommended for itchiness of the skin, but found nothing to give me relief until I struck Doan's Ointment, which I obtained at the Janesville Co's drug store. I had an affliction of the skin on my face caused from the burning oil about the engine and dynamo. My face itched and annoyed me, and rubbing it only made it worse and made it sore. I could hardly stand shaving, for the skin broke and bled. A few applications of Doan's Ointment removed the itchiness and healed up my face in a few days. I would not be without this remedy in my house, and I certainly recommend it to others in need of such a preparation."

Doan's Ointment is sold for 50 cents per box by all dealers. Mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the C. S. Remember the name, Doan's, and take no other.

Big Cargo of Gold Coming.
Seattle, Wash., Sept. 26.—The schooner Samoa has arrived here from St. Michael, Alaska, with fifty-three Klondikers and gold dust valued at \$106,000. The officers of the Samoa say that the steamer Bertha was to sail from St. Michael Sept. 13 for San Francisco with one of the largest gold cargoes of the season. They estimated that it would be worth between \$2,500,000 and \$3,000,000.

New Boats for the Navy.
New York, Sept. 26.—A special to the Tribune from Washington says: The navy department will open bids on Oct. 3 for the construction of the four harbor-defense vessels for which congress made an appropriation on May 4. They are to be of the monitor type, each having one or two turrets and to cost, exclusive of armament, not more than \$1,250,000.

GOV. SCOFIELD'S GOOD WORK

Milwaukee Sentinel: Gov. Scofield has been energetic and judicious in look-
ing out for the comfort of the Wisconsin
soldiers. From the time the first pre-
parations for the war began to the pres-
ent moment he has displayed a wise so-
litude for the welfare of the soldiers
and has exerted his influence in their be-
half at every opportunity. No request
made upon him has been neglected, and
he has been quick to act wherever
he thought he could be helpful
in promoting the comfort and well-be-
ing of the state troops or further their
ambitions. While it was his duty as
governor of the state to take all possible
measures to benefit the state troops, it
has been evident that his heart has been
in his duty. It has been a labor of love
for him which he has discharged faith-
fully and well. The men enlisted from
Wisconsin recognize their debt to the
governor and some spontaneous expres-
sion of their gratitude has already taken
place. The governor deserves the thanks
of all the people of the state for his
painstaking efforts in behalf of the
soldier boys during the last few months.

DECLINE IN WOOL IMPORTS

As one of Janesville's flourishing in-
dustries is a woolen mill, the following
from the Kalamazoo Telegraph may be
of interest: "The enormous decline in
the imports of woolen goods during the
past year is a clear demonstration of
the beneficial effect of the re-
publican tariff of 1897. During the
last year of the Wilson tariff measure,
the imports of woolen goods reached
the enormous sum of \$49,100,000,
which drove woolen manufacturers in
this country to despair. The fiscal year
just closed has wrought a great change,
the total imports being less than \$25-
000,000. This means that during the
last fiscal year the American people
consumed nearly \$35,000,000 worth of
American woolen goods in excess of the
last year of the Wilson bill. In other
words, American woolen mills and
American labor was benefited to that
extent. 'This is an industrial improve-
ment that cannot be denied.'

Janesville people feel the direct re-
sult of the change in schedules and the
fact that the Dingley law is in force,
puts money in their pockets.

The Walker Manufacturing Company

Cleveland, has just closed a contract with
parties in Paris for 500 electric steel
cars with all the belongings necessary
to put the whole plant in complete run-
ning order. The fact also goes to upset
the claim that we cannot compete with
foreign manufacturers.

The Wisconsin democracy has suc-

ceeded in getting up a composite plat-
form that challenges the admiration of
all—who like what Bob Schilling
calls "Hop-doodle."

The Norwegian government has in-

ited American ship builders to submit
bids on men-of-war. The name of the
American fighting craft has been immor-
talized of late and all who want the best
come to us.

of the women of the gay capital are

just the same.

May Enter Soldiers' Homes.

Milwaukee, Wis., Sept. 26.—Soldiers
of the Spanish-American war, when so
disabled that they cannot care for them-
selves, will be admitted to the
national soldiers' homes. Senator
John L. Mitchell says that while the
law provides that the national homes
are for disabled soldiers of the civil
war, some discretion is given the board
of manager of the homes in a clause
which permits such other soldiers to
be cared for as in the judgment of
the managers is deemed right. Under
this ruling Senator Mitchell says that
members of the regular army have
been cared for at the homes until they
could be transferred to their home at
Washington, and he says it is his judg-
ment that needy and disabled soldiers
of this war will be cared for at the
homes if they apply and room can be
found for them. "It may be stretch-
ing the law a little," said the senator,
"but it is in the interest of humanity."

Serious Outlook in China.

London, Sept. 26.—A special dis-
patch from Shanghai says that Kang
Yuwei's brother has been arrested in
Peking and condemned to death. The
dispatch also says that Sir Claude Mac-
donald, the British minister, gave in-
structions that Kang Yuwei should be
protected from arrest. The British
consulate holds his baggage and docu-
ments referring to state secrets. The
Russians are incensed at the latter
fact, and it is reported that Russia
has offered the downer empress the
services of 10,000 troops from Port
Arthur to keep order in Peking if nec-
essary. It is stated that the British
fleet in Chinese waters has been di-
vided between Ta Ku and Shanghai
ports in the event of an attempt to
land troops.

Kansas Flouring Mills Close.

Topeka, Kan., Sept. 26.—Flouring
mills all over Kansas are shutting
down because they cannot get wheat
to grind. It is estimated by grain
men here that nearly 100 flouring mills
in the state have been forced to close
for this season. It is declared that
the farmers of Kansas have combined
to hold their wheat for better prices,
but this cannot be confirmed. The
facts are that the farmers are able
to hold their wheat. They have money
in the banks and their debts are paid.
More than 70,000,000 bushels of wheat
is being held for higher prices.

JUDGE PHELPS DIED THIS AFTERNOON

**INJURIES RECEIVED CAUSED
HIS DEATH.**

Was Municipal Judge and Was a Prominent Politician and Grand Army Man—Beloved By All Who Knew Him—Other Deaths In the City.

Hon. M. M. Phelps, judge of the municipal court of this city, died at 1:40 p. m. today. His death was the result of injuries he received ten weeks ago while returning on his bicycle from his farm in the town of Rock. He was at the Monterey crossing where there is a rising grade, and in propelling his wheel up the incline he naturally lowered his head and did not notice the approach of a passenger train. He struck it squarely and was thrown violently to the ground. His jaw was fractured in two places, one of his legs broken, and he sustained internal injuries which proved in the end to be the most serious of all.

Taken to his home the judge received the tenderest of care. From the first the physicians entertained little hope of his recovery, but he possessed a strong constitution, and his hurts mended rapidly. But developments proved that his brain had been injured by the accident. For two or three weeks his mind has wandered, and he became as helpless as a child. Several days since his case was seen to be hopeless. Although he suffered much pain he bore it bravely. At times he was conscious of his condition, and did not dread the inevitable end.

Mr. Phelps was born in Portage county, Ohio. From the common school of his native village, he entered the Meadville, Pa., college where he graduated with honors, and where he enlisted with classmates in the Pennsylvania Reserves. His ability was soon recognized and he received a lieutenant's commission.

In the second battle of Bull's Run he was wounded in the shoulder, a rifle ball passing nearly through his body. After six weeks in the hospital he was paroled for sixty days and went home. Before the furlough expired he was able to rejoin his company, but soon discovered that he could not endure the strain of army life and was compelled to resign. On his return home he was commissioned by his friends to go south and fill a draft quota for his county. A large sum of money was placed in his hands for the purpose, and the commission was faithfully executed. In 1865 he came to Wisconsin with his young wife and located in Janesville where he has since resided. His life among us for a third of a century is an open volume and requires no eulogy. Conservative, honest, loyal and faithful, his memory will abide as an inspiration.

To his father and mother, in their declining years, who for the third time in the past few months, have been called to mourn, as well as to the widowed daughter, whose cup of sorrow is running over, generous sympathy will be extended.

Judge Phelps was an old resident of this city, a lawyer of ability and highly esteemed. In his judgments against offenders he was never harsh but always just, always preferring to exercise mercy when it was deserved or offered a hope for the reformation of one who had gone wrong.

Judge Phelps was prominent in all public affairs and one of the leading Grand Army men of this section.

The funeral will be held at 2:30 p. m. from the late residence of deceased.

Members of the Rock county bar are requested to meet tomorrow morning at 10 o'clock at the office of Smith & Pierce to take action regarding the death of the late Judge Phelps.

Mrs. Silas Twing.

After a long illness, death came to Mrs. Silas Twing at 2:20 o'clock this morning. A complication of diseases had afflicted her, but the immediate cause of her demise was consumption. Beside her husband she leaves two sons to mourn her death—Arthur and Walter. Deceased was forty-one years, one month and five days of age, and had been a resident of the city about one year, having moved here from Ft. Atkinson.

The funeral will be held in the M. E. church of Edgerton at 2 o'clock Wednesday afternoon. Brief services will be held at the house, 203 Cherry street, at 12 o'clock.

Mrs. M. C. Page.

In Oak Hill cemetery, all that was mortal of the late Mrs. Mida Culver Page, was laid to rest yesterday afternoon. Services conducted by Rev. Robert C. Denison were held from the Court street home of her mother, Mrs. Mark Ripley, at 2 o'clock, and were largely attended by loving friends. The floral offerings were beautiful and many. The pall bearers were C. C. Russell, A. E. Matheson, S. M. Smith, Robert M. Bostwick, Albert Schaller, and H. J. Cunningham.

Flora F. Bahr.

Flora Frances Bahr, son of Mr. and Mrs. William Bahr, of 58 Jefferson street, died yesterday morning at 6:30 o'clock, aged three years and sixteen days. Besides a father and mother two sisters and two brothers are left to mourn his death. The funeral services will be held tomorrow afternoon at 1:30 from the home and from St. John's church at 2 o'clock.

Mrs. Bridget Cassidy.

Mrs. Bridget Cassidy, aged forty-eight years, died this morning at 1:30 o'clock at the home of her brother, John Maxwell, No. 3 Cherry street. She was ill about three weeks. The funeral will be held Wednesday at 9:30 a. m. at St. Patrick's church, to Mt. Olivet cemetery.

It takes three hours for Chicago evening papers to get to Janesville. It takes less than one second for the telegraph to cover that distance. The Janesville Gazette receives full press association dispatches, and the news is three hours later than that of Chicago and Milwaukee evening papers sold in this part of the state.

She leaves three brothers, James, Miles and John Maxwell, all of this city.

Father Munich.

Rev. Father Munich, former pastor of St. Mary's church in this city, died Saturday at Jefferson. Seventeen years ago he was a resident of this city, and was a man loved and esteemed by all. Services will be held over the remains Wednesday at Jefferson, and the interment will be at Caledonia, Ill., on Thursday.

Henry Huyke Wins Bride on Bicycle.

Former City Resident Again Seeks a Wife.

Eloped at Chippewa Falls With His Former Evansville Love—Now They Are Happy And Have Been Forgotten—Make Their Home In Cut Off City.

Henry Huyke, who moved from this city to Evansville, has again entered the matrimonial field. He has married Miss Amanda Balle, of Evansville, for the second time.

During the early part of the summer he was joined in holy wedlock to the same young lady, but on account of her tender years her parents sought the courts and a separation was secured. Then it was that the young lady and her parents moved to Chippewa Falls to reside. They had been there but a short time when up came Henry one bright morning, just as the sun was making its appearance.

He bobbed up serenely.

Not in the least surprised was the young lady, but her parents, it is said, looked at Huyke's coming in an entirely different light. They then and there notified their daughter that they wished her to remain at home away from her former husband, and to have as little to do with him as possible. Huyke in the meantime was losing no time in planning a little escapade, and as it seems that the young lady was still in love with him and well informed as to his movements in Chippewa Falls, they found it an easy job to elude the old folks.

Eloped On Wheels.

But an elopement on bicycles, and a honeymoon spent in propelling the silent steed along mile after mile of rough and muddy roads, is certainly a novelty. It was in this way, however, that Miss Amanda Balle and Henry Huyke, eloped and spent their honeymoon.

Fair week was chosen by the young couple as a fitting time for the climax. The bride owned a wheel, and the groom not being fortunate enough to own one himself, rented one and together they rode away.

The angry parent, necessary to perfect the elopement, immediately arrived on the scene in the person of Mr. Balle, the bride's father. Messengers were sent in pursuit, but as the fleeing pair rode strictly high grade wheels, they managed to keep in front and have not yet been overtaken.

The wheel that Mr. Huyke used was returned Thursday from Black River Falls.

Mr. and Mrs. Huyke are now at home to their numerous friends in Evansville.

Andrew C. Pond, teller at the First National bank was kicked in the head yesterday by a horse at Newville and for two hours was unconscious. The unfortunate man was removed to the James Richardson home near by and Dr. Shepherd, of Edgerton, and Dr. W. H. Judd, of this city, were called. They found the injured man in a bad condition but close examination revealed that the skull was not fractured.

This morning he was brought to this city and taken to his Jackman street home. At a late hour this afternoon Dr. Judd reports him as resting easy, and his recovery is only a matter of a short time.

Mr. Pond and family drove to Newville yesterday to visit the Bladen and Snell families, who were camping at Lake Koshkonong. He hitched his horse to a tree and in a short time afterwards, quietly approached him from behind, when the frightened animal let go his hind legs, striking Mr. Pond on the forehead, cutting a two-inch gash over his left eye.

It is worth knowing that there is a reputable institution in Janesville, endorsed by our best citizens, where a man can get a positive, genuine and reliable cure of the liquor habit. HENRY HUYKE WINS BRIDE ON BICYCLE

**FORMER CITY RESIDENT AGAIN
SEEKS A WIFE.**

Eloped at Chippewa Falls With His Former Evansville Love—Now They Are Happy And Have Been Forgotten—Make Their Home In Cut Off City.

Henry Huyke, who moved from this city to Evansville, has again entered the matrimonial field. He has married Miss Amanda Balle, of Evansville, for the second time.

During the early part of the summer he was joined in holy wedlock to the same young lady, but on account of her tender years her parents sought the courts and a separation was secured. Then it was that the young lady and her parents moved to Chippewa Falls to reside. They had been there but a short time when up came Henry one bright morning, just as the sun was making its appearance.

He bobbed up serenely.

Not in the least surprised was the young lady, but her parents, it is said, looked at Huyke's coming in an entirely different light. They then and there notified their daughter that they wished her to remain at home away from her former husband, and to have as little to do with him as possible. Huyke in the meantime was losing no time in planning a little escapade, and as it seems that the young lady was still in love with him and well informed as to his movements in Chippewa Falls, they found it an easy job to elude the old folks.

Eloped On Wheels.

But an elopement on bicycles, and a honeymoon spent in propelling the silent steed along mile after mile of rough and muddy roads, is certainly a novelty. It was in this way, however, that Miss Amanda Balle and Henry Huyke, eloped and spent their honeymoon.

Fair week was chosen by the young couple as a fitting time for the climax. The bride owned a wheel, and the groom not being fortunate enough to own one himself, rented one and together they rode away.

The angry parent, necessary to perfect the elopement, immediately arrived on the scene in the person of Mr. Balle, the bride's father. Messengers were sent in pursuit, but as the fleeing pair rode strictly high grade wheels, they managed to keep in front and have not yet been overtaken.

The wheel that Mr. Huyke used was returned Thursday from Black River Falls.

Mr. and Mrs. Huyke are now at home to their numerous friends in Evansville.

QUESTION OF POLICY.

Debans Opposed to a Large American Army in Cuba.

Washington, Sept. 26.—The plan of the administration to send at least 40,000 and probably 60,000 soldiers to garrison the island of Cuba is meeting with the determined opposition of Cuban leaders. They point to the fact that the Spanish soldiers are all to be sent away and that as rapidly as possible the Cuban army is merging with noncombatants, giving cheerful acquiescence to American rule and authority.

Senor Quesada, secretary of the Cuban junta, points out that Gomez has yielded and ordered his men to muster out as soon as possible, that Garcia is the guest of Gen. Lawton at Santiago, and has nothing but kind words for the Americans; that like conditions prevail all over the island so far as the Cubans are concerned, and in view of this action of the administration in sending such a great army there, can not fail to incite the fear that the United States has an ulterior object in view.

ARMY TO BE SENT TO CUBA.

Spain Has Until Oct. 20 to Evacuate the Island.

OUR ULTIMATUM DELIVERED.

President McKinley Considers He Has Allowed the Spanish Government a Reasonable Time to Remove the Troops from the Lost Territory.

Washington, Sept. 26.—The first troops of the army for the occupation of Cuba will leave this country Oct. 20. Gen. Miles says that this detachment will consist of about 3,000 troops, to be divided among regulars.

These will be followed from time to time by detachments to fill out the 50,000 intended for the garrison of the island. The first detachment will report to Gen. Wade.

It is not admitted by the war department yet that Gen. Wade will be the military governor of the island, but there is reason to state the fact positively. Gen. Lee and Gen. Carpenter will be two of the commanders in military divisions on the island.

This early announcement of the destination of troops for Cuba is due to the fact, not heretofore stated, that the president has sent the Spanish commission an ultimatum that the authorities here would not tolerate a delay in evacuating the island to Feb. 28, as had been contemplated by the Spaniards.

The president considers Oct. 20 a reasonable time, and will begin the peaceable occupation then, and will occupy it by force if he is resisted.

MANY SICK AT MANILA.

Alarming Condition Reported Among Troops in the Philippines.

Washington, Sept. 26.—The war department is now menaced with an alarming sick roll among the troops in the Philippine islands. There are now at Manila 16,500 troops, and reports which, while inofficial, are believed by the war department to be unexaggerated, place the number of the sick at nearly 700. The percentage is a little more than 4 per cent, but the total is a dangerous consideration.

When Gen. Miles was seen at his office and asked about the sickness in the army in the Philippines he said: "I know of no way to account for it, if the reports are true, except that this is the sickly season."

Acting Secretary of War Meiklejohn, while appreciating the gravity of the situation, was not alarmed. He said: "I do not think the percentage large, considering the fact that there are over 16,000 troops on the island of Luzon."

MUST YIELD THE PHILIPPINES.

Peace Commission, It Is Said, Will Hold Out for American Control.

London, Sept. 26.—The Daily News quotes an American fellow passenger of the peace commission, who had several informal conversations with them during the voyage from New York. He says that "although there was an agreement, nothing was divulged as to the nature of the instructions given the commission in Washington. I may say that the commission will never leave Paris until control of the entire Philippine group by the American nation has been accomplished."

Fight the Typhoid Fever.

Middletown, Pa., Sept. 26.—To prevent the spread of typhoid fever in camp the Two Hundred and Third New York regiment, which is infected with the disease, will be isolated from Camp Black. Chief Surgeon Girard says the fever had its incipency in the New York camp and the sick will be sent to Philadelphia hospitals.

Want to Return to Spain.

Madrid, Sept. 26.—It is announced here that 10,000 Spaniards residing in the island of Porto Rico have refused to live in the island under the American flag and have demanded that they be returned to Spain at the expense of the government. The question of the repatriation of the discontented Spaniards has been referred to the state council.

Another Cruiser for Dewey.

Washington, Sept. 26.—A further increase in the already large fleet under command of Rear Admiral Dewey has been provided for by the navy department in the decision to send the cruiser Buffalo to Manila. The Buffalo is a very serviceable cruiser, with a battery of rapid-fire guns. She will proceed to Manila by the South American route.

Second May Come Back.

Jacksonville, Fla., Sept. 26.—Considerable excitement has been caused here by the reported statement of railroad officials that they have been asked to bid on transporting the Second Illinois home. It is said this report has been confirmed by officers of both Gen. Miles' and Gen. Lee's staffs. No positive facts can be ascertained.

Health of Troops Improving.

Guantanamo, Cuba, Sept. 26.—Two deaths from yellow fever, one from pneumonia and twenty-five believed to have been caused by malaria are reported to have occurred since Aug. 20 among Col. Ray's troops and the companies of the Third volunteers, numbering 640, now here. The condition of the troops is improving.

Harrison Will Speak in Toledo.

Toledo, O., Sept. 27.—Ex-President Harrison has consented to open the republican campaign in northwestern Ohio in Toledo Oct. 5. Congressman Dooliver will be another speaker at this meeting, which is to be for the entire ninth district.

Agree on Lumber Question.

Quebec, Que., Sept. 26.—The international joint high commissioners are getting very close together in the matter of adjusting the question of trade relations between the two countries, and in doing this the great industrial interests of the United States are not to suffer. The assurance of a member of the American commission is given that the industrial system of the United States will not be disturbed and that there is not the slightest reason for apprehension on the part of Americans that any of the great industries are to be sacrificed. It is practically settled now that the lumber question will be settled in a manner satisfactory to both Americans and Canadians.

Cuban Army Is Starving.

Washington, Sept. 26.—Telegrams have been just received at the Cuban legation at Washington from commissioners who have arrived at Key West, Fla., and who are sent to this country by Gen. Maximo Gomez, the Cuban insurgent leader. These telegrams depict the situation in the province of Santa Clara as most critical. The Cuban army is starving and for over two weeks has been unable to procure any meat; the vegetables are almost gone, and the last mules and horses have been killed to feed the sick. The children and old people are dying by dozens every day. Gen. Gomez appeals for aid and says his men are desperate.

Michigan Tax Levy.

Lansing, Mich., Sept. 26.—The state tax to be levied in Michigan this year will amount to a trifle more than 9.5 mills on the equalized valuation of the state. The state board of equalization meets every five years and equalizes the value of each county. It last met in August, 1896, when the value of all the real and personal property in the state was equalized at \$1,105,100,000. On this basis, therefore, the state tax to be paid in December will amount to \$2,158,770.57, a decrease of \$221,136.56 from the levy of last year.

Two Ways

One way is to lie, cheat, swindle, fool the people for six or eight months, get all you can, keep all you get and run away between two days. It is harder work than horse stealing, but it doesn't require as high an order of intellect. The other way is to tell the truth, sell honest goods, guard your reputation and build up a business that will last after you are dead and gone. It isn't easy, but it is worth all the work it costs. We have been building hardware business and reputation for thirty years; each year has seen an advance over the previous one and from present indications we think people will know this store after we are dead and gone.

We are Pleased

To say we are very much alive now though. More agile than ever along the stove line this fall. We never bought so many stoves before as we have this fall and our stove business never opened up with such a rush at such an early date as it has this season but we are prepared for all comers. Southern Wisconsin never had a store with such a complete line of good stoves as we show.

The World Famous Garland

A stove that all confidence can be placed in, when you rely on the judgment of the stove dealer (which nine out of ten people usually do,) as to the stove that will give them perfect satisfaction. The Garland always fills the bill.

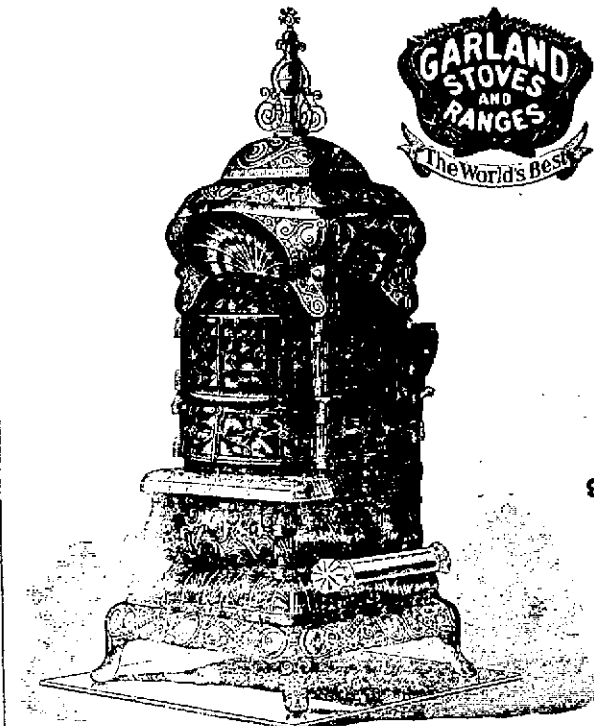

The Best Go-Between Stove

Ever introduced is the AIR TIGHT fine heating apparatus for spring and fall. They heat wonderfully, are economical, and hold fire 48 hours. We show the most complete line of Air Tights in the city, all sizes.

Our list of second-hand cookers and heaters in good order is large and contains many bargains.

If This Heat

Could be stored up until next winter we wouldn't be obliged to buy stoves,

but as it is the earlier the winter fixings are in the better prepared you will be prepared for the first cold snap. Don't put off a necessity.

Our Tin Shop

is hammering all day; makes so much noise the book keeper can't think. We are doing plenty of work and can attend to yours at once.
